Live Streamed Lessons - Update

Dear Parent/Carer,

I would like to provide you with a short update about our live, streamed lesson provision. As you will be aware, from last week all students who have been self-isolating have been able to benefit from accessing their lessons live through their Google Classroom account. The live, streamed lessons have been both well-attended and well-received by students and the provision has ensured that students have not fallen behind with learning whilst at home.

Generally, the lessons have been very productive and students have been encouraged to contribute to lessons in the same way in which they would if they were in school.

As expected, there have been a couple of initial, technical difficulties which we are aware of and which have been rectified. Please rest assured that if there is a technical issue with a live, streamed lesson this is dealt with as a priority and we appreciate your patience with this.

One concern that has been raised has been about the expectations of students studying from home. Students should engage with live, streamed lessons as they would in a classroom, and commit their full attention to the lesson. We would also like to remind students of the need to dress appropriately and to ensure that they can work, wherever possible, without outside distractions. Further information regarding student expectations can be found on our website on the "Home Learning" page.

For your information, if no students need to access the live, streamed lesson, then the stream will be turned off after fifteen minutes.

I would like to thank you again for your support with our online learning programme as we continue to do our best to support the needs of our students.

Yours faithfully,

Miss H Daly
Assistant Headteacher
